We believe in the quality of products, because through maintaining it, every firm can attain growth in industry. Our company is also enjoying leading position in industry just because of maintaining excellence in its entire product range and after sales service.

For this, we have developed a separate quality control team and made selection of trained as well as specialized quality experts.

PRODUCT **ATTRIBUTES**

- It takes passengers at speeds of 20-25 km/hr
- It can go to 80-100 km per battery charge.
- ORIGINAL has a PMDC motor, lead acid batteries, three speed specially designed gear box and an electronic card for soft start.
- The charging of the batteries is done overnight via a stand alone battery charger.
